

2016/2017

National Tile Contractors Association

REFERENCE MANUAL

**PROBLEM CHARACTERISTICS
CAUSE • CURE • PREVENTION**

Table of Contents

Limitation on Use and Disclaimer	1
Reference Manual and Specifications	1
2016 NTCA Technical Committee Roster	2
CHAPTER 1 GENERAL REQUIREMENTS	8
General Statement on Moisture Emissions	12
<i>TCNA Handbook</i> Environmental Classifications	13
CHAPTER 2 SUBSTRATES	14
Proper Preparation and ANSI Requirements for Thin-set Method Tile Installation	18
<i>Notes to the Tile Contractor – Sample Letter for Contractor</i>	19
Curing Compounds and Release Agents	20
<i>Testing for Curing Compounds – Sample Letter for Contractor</i>	21
Interior Horizontal Installation of Tile Over Exterior Glue Plywood (EGP) Introduction	22
Interior Installation of Tile Over Exterior Glue Plywood (EGP)	23
Movement Joints	26
<i>Notes to the Tile Contractor – Sample Letter for Contractor</i>	28
Questionable/Unsuitable Substrates	30
Substrates/Applications that Require Design Consideration	32
Backerboards	33
Backerboard Definitions	35
Tile and Stone Applications on Equivalent Gauge (EQ) Steel Framing	36
<i>Sample Letter for the Contractor – Tile Over Steel Stud Assembly</i>	37
General Statement on Deflection	38
Ceramic & Stone Tile Installation over Engineered Wood Structural Floor Assemblies	39
Summary of Subfloor (Plywood or OSB) Design and Construction Guidelines for Tile Installation	40
Technical Background – Engineered Wood Structural Floor Assemblies	41
General Contractor's Guide for Ceramic & Stone Tile Installations	
Over Wood Structural Floor Assemblies	44
Glossary of Terms for Engineered Wood	46
<i>Notes to the Tile Contractor – Sample Letter for Contractor</i>	47
Ceramic Tile & Stone Installations Over Concrete Substrates	48
Concrete Substrate Issues	50
Floor Flatness	52
Concrete Flatness & Level	53
<i>Sample Contractor Letter – Request for Information for Floor Flatness Requirements</i>	54
<i>NTCA Reference Manual 2016 / 2017</i>	5

Table of Contents (continued)

Division 3 versus Division 9 Floor Flatness Tolerances – ASCC Position Statement #6	55
UNDERLAYMENTS	
Introduction	56
Loss of Underlayment Bond to Substrate	58
Cracking	59
Soft or Powdery	60
Poured Gypsum Underlayments	64
Poured Cement-based Underlayments	65
Tile Over Poured Gypsum Underlayments and Leveling Materials	66
<i>Note to the Tile Contractor - Sample Letter for Contractor</i>	67
CHAPTER 3 MEMBRANES	68
Waterproof Membrane Document	72
Types of Membranes	73
Crack Isolation Systems	76
Self Adhered Crack Isolation & Sound Control Membranes Introduction	77
Self Adhered Crack Isolation & Sound Control Membranes	78
CHAPTER 4 THICK BED METHOD INSTALLATIONS	82
Preparation for Thickset Installations per ANSI and TCNA reference standards	86
Mortar Beds	87
CHAPTER 5 THIN-BED METHOD INSTALLATIONS	90
NTCA Problem-Solving Guide For Dry-Set Mortar Installations:	
Introduction	94
Proper Bedding Procedures	96
Loss of Bond:	
Dry-Set Mortar Adheres To Tile But Not To Substrate	98
Dry-Set Mortar Adheres To Substrate But Not To Tile	101
Dry-Set Mortar Fractures Within Bonding Material – Mortar On Tile And Substrate	104
Bond Failure On Exterior Installations	105
Tenting	106
CHAPTER 6 SPECIALIZED INSTALLATION PROCEDURES	108
Cold Weather Tiling	112
Critical Lighting Effects on Tile Installations	113
<i>Tips for Tile Contractor – Critical Lighting</i>	114
Critical Lighting - Interior Wall Wash (example pictures)	116
Critical Lighting - Lighting Placement (example pictures)	117
Light Strategy Emphasis for Tiled Wall Surfaces	119
Grazing or Horizon Lighting maximizes shadow and texture, often with a negative effect (example pictures)	120
Hot Weather Tiling	122
Large Porcelain and Glass Bodied Tiles	124
Box Screed	127
Trowel Guidelines	128
Backbuttering	130

Use of Fast Setting Mortars to Reduce “Down Time” in Freezers or Coolers	131
Bonding Large Size Tile For Coverage, Support and Reduced Lippage (example pictures)	132
Radiant Heat Issues for Tile & Stone Installations	134
Prerequisites and Considerations for Successful Balconies, Courtyards, Patios, Plaza Decks, Roofs, Exterior Walking Surfaces and Swimming Pool(s) Decks	138
Shower Issues (Tub/Shower Combo and Prefabricated Shower Pans)	140
Performed Shower Receptor Guidelines	144
<i>Sample letter for the General Contractor or Installer – Glass Enclosure and Waterproof Systems</i>	145
Steam Rooms	146
 CHAPTER 7 MATERIAL SPECIFIC INSTALLATIONS	 150
Broken Natural Stone Tiles	154
Lippage or Uneven Natural Stone Tiles	155
Scratches or Dull Traffic Areas in Natural Stone Tile Floors	156
Etched or Dull Areas in Polished Marble Surfaces	157
Stains	158
Stone and Marble Maintenance Procedures:	
Protection and Maintenance of Natural Stone Floors	159
Maintaining Polished Marble Countertops and Bars	162
Maintaining Polished Marble Walls	162
Stain Removal from Natural Stones	163
Marble Stain Removal	164
Mesh Backed Stone and Tile White Paper	166
Glass Tile:	
Glass Tile Description	168
Glass Tile	170
<i>Sample Letter for the Tile Contractor - Glass Tile</i>	171
Stone, Ceramic, Glass Tile Inspection Check List	172
Thin Tile:	
New Technology Porcelain Tile as we Know it Today	174
Position Statement on Thin Porcelain Tile	174
<i>Notes for the Tile Contractor - Thin Tile Installations</i>	179
 CHAPTER 8 GROUTS	 182
NTCA Problem-Solving Guide For Ceramic Tile Grout Installations:	
Introduction	186
Grout Guide	188
Latex Modified Portland Cement and Modified Epoxy Mortars and Grouts	192
Cementitious and Modified Cementitious Grouts:	
Latex Modified Grout	193
Efflorescence	196
Latex Migration	198
Crazing and/or Cracking of Grout Joints	199
Low Grout Joints	201
Pinholes in Grout Joints	204
Powdery or Soft Grout Joints	206

Table of Contents (continued)

Rough Textured Grout Joints _____	207
Inconsistent Grout Color _____	208
100% Solids Epoxies and Furan Grouts:	
Grouting with 100% Solids Epoxy _____	214
<i>Tile contractor's sample letter</i> _____	216
Acceptable Joints when Grouting with 100% Solids Epoxy _____	217
Low Grout Joints _____	218
Pinholes in Grout Joints _____	219
Soft Grout Joints _____	220
Inconsistent Grout Color _____	221
CHAPTER 9 MAINTENANCE _____	224
General Statement on Mold _____	228
Recommendations For Exterior Tile Maintenance _____	230
Care & Maintenance _____	232
Care & Maintenance Sealers _____	233
Recommendation for Interior & Exterior Maintenance of Polished Porcelain Tiles _____	234
Maintenance of Textured/Unglazed Porcelain Tiles _____	234
<i>Sample Letter – Use of Porcelain Tiles</i> _____	235
Grout Haze on Textured/Unglazed Porcelain Tiles _____	236
Grout Haze on Polished Porcelain Tiles _____	236
Care & Maintenance Myths & Helpful Hints _____	238
Care & Maintenance Problem Solving _____	240
Care & Maintenance Glossary _____	242
CHAPTER 10 PRECAUTIONS _____	243
Coefficient of Friction and the DCOF AcuTest™ _____	246
Tile Not Manufactured to Industry Standards _____	248
<i>Tile Contractor Precautions/Letter - Tile Not Manufactured to Industry Standards</i> _____	250
Tile Over Other Surfacing Materials – <i>TCNA Handbook</i> Method TR711 (Asbestos Fiber Warning) _____	252
Spot Bonding _____	253
Use of Felt and Similar Products as Crack Isolation Membrane _____	256
Optical Hazing Possibly Caused by Post-Fire Prganic Coatings and/or Polishing Inconsistencies _____	257
Linear Drains Checklist _____	258
CHAPTER 11 GLOSSARY _____	258
INDEX OF TABLE OF CONTENTS _____	285
ADVERTISER'S INDEX _____	287
