Preface

1. Tile Selection

Qualities and Benefits of Ceramic Tiles	10
Versatile	11
Hardwearing/exceptional life cycle	11
Low maintenance	11
Easy cleaning	11
Hygienic	11
Fire and heat resistant	12
Chemical and stain resistance	12
Colour fast	12
Energy efficient	12
Anti-bacterial	12
Tile Types	13
Glazed tiles	14
Vitrification	14
Prime Types of Ceramic Tile Marketed in Australia	15
Porous ceramic tiles (> 10%)	15
Semi porous ceramic tiles ($6\% < E_v \leq 10\%$)	15
Semi vitrified ceramic tiles ($3\% < E_v \leq 6\%$)	15
Vitrified ceramic tiles ($0.5\% < E_v \leq 3\%$)	16
Highly vitrified ceramic tiles ($E_v \leq 0.5\%$)	16
Slim porcelain tiles and panels	17
Thick porcelain paver tiles	17
Choosing the Right Tile	18
Benefits of Dealing with an ATC Member	20
Selecting Your Tiler	21
Tiling Checklist	23
During Installation	24
Post Installation	24

Preface

The Australian Tile Council (ATC) is the ceramic tile industries Representative Body and is made up of all sectors within the Tiling Industry.

The ATC's Tiles & Tiling Guide has been developed to assist those within the Tile Industry, Builders, Architects, Designers and Specifiers and the General Public to access and understand the main areas relating to Tiles and Tile Installation.

The Tiles & Tiling Guide was originally authored by Tony Stock and now revised and edited by the Australian Tile Council National Technical Committee

Our thanks go to Tony and all those that generously donated their time for their contribution to this document.

The Tiles & Tiling Guide is designed to be a living document and under the direction of a National Technical Committee will be regularly revised and updated.

Readers should ensure that they always reference the latest edition as the information in earlier editions may have changed. The latest edition is available on the ATC website at **www.austriantilecouncil.com.au**

For a list of Australian Tile Council members visit the ATC website at **www.austriantilecouncil.com.au/member-list**
